PROFILE

A Software Engineering Technology student at Batam State Polytechnic with experience developing web, mobile, and Internet of Things (IoT) systems through a Project-Based Learning (PBL) approach. Proficient in Kotlin, Jetpack Compose, PHP, Laravel, MySQL, and PostgreSQL, and capable of developing end-to-end solutions from requirements analysis, system design, implementation, to testing.

EDUCATION

Batam State Polytechnic | D4 Software Engineering Technology
GPA 3.87 of 4.00

January 2023 - Present

PROJECT EXPERIENCE

- Koladi - Web-Based Digital Office System** | Fullstack Developer **September 2025 - January 2026**
- Contributed to UI/UX design and implementation across both frontend and backend for key features, including mind mapping, announcement system, role-based access management, workspace, and database integration.
 - Performed maintenance, bug fixing, and feature improvements across the system, including announcement and mind mapping features, as well as database improvements and UI/UX enhancements.
- FabricMatch - IoT Color Matching** | IoT & Android Developer **February 2025 - July 2025**
- Contributed to UI/UX design and implementation across both frontend and backend for key features, including mind mapping, announcement system, role-based access management, workspace, and database integration.
 - Performed maintenance, bug fixing, and feature improvements across the system, including announcement and mind mapping features, as well as database improvements and UI/UX enhancements.
- EduFarm - Mobile Application for Learning to Farm** | Android Developer **September 2024 - December 2024**
- Implementing a user interface (front-end) using Kotlin and Jetpack Compose, including UI layout and navigation between pages.
 - Developing backend services with Express.js, and MySQL, including database design, API development, and agricultural content data management.
- DokterOnTime - Clinic Management & Appointment System** | Web Developer **February 2024 - August 2024**
- Designed the system workflow and design documentation, including activity diagrams, use case diagrams, ERD, and database structure.
 - Developed web backend using PHP and MySQL, integrating appointment scheduling, patient record management, and role-based access for Admin, Doctor, Patient, and Pharmacist.
- BabyBites - MPASI Guide Application** | Web Developer **February 2024 - July 2024**
- Implemented the BabyBites front-end interface, including recipe recommendations, recipe details, nutritional information, search, favorites, history, and admin pages.
 - Integrate the application with a MySQL database to manage recipe data, age categories, nutritional information, favorites, history, and user data.

TECHNICAL SKILLS

- Programming Languages:** HTML, CSS, PHP, JavaScript, Kotlin
- Mobile Development:** Jetpack Compose, MVVM, Retrofit
- Web Development:** Laravel, Express.js, REST API
- IoT Development:** ESP8266, MQTT Protocol
- Database:** MySQL, PostgreSQL
- Tools & Technologies:** Git, GitHub, Postman, Figma, Visual Studio Code, Draw.io, Android Studio

CERTIFICATIONS

- Funded PKM Project - DokterOnTime
- MSIB Batch 7 (Infinite Learning - Android Mobile Development & UI/UX Design)
- Dicoding Certificate Academy - Basics of UX Design
- Dicoding Certificate Academy - Start Programming with Python

ACHIEVEMENTS

- Funded Project Awardee – PKM-KC (DokterOnTime – Clinic Management & Appointment System)

ORGANIZATIONAL EXPERIENCE

Batam Linux User Group Media & Infromation Staff	Period 2024 - Period 2025
• Managed multimedia documentation and publication materials for organizational activities and events. • Served as cameraman and video editor for event documentation • Design visual assets including banners, posters, backdrops, and event support materials.
